**Comments from the United Kingdom on the Decision-by-Mail - Pacific regional program:
Proposal for Phase 1 Funding**

Patricia

We believe there may have been some confusion around the implications of the UK's approval of these Phase 1 proposals. Please note that we are happy to approve them now, but that since our comments relate to the successful implementation of Phase 1, we would want to see them taken into account in the final versions of the Phase 1 proposals that are used for Phase 1 implementation, rather than waiting until the drafting of the SPCR for them to be taken into account.

Many thanks
Vicky
