Comments from the United Kingdom--Approval by mail: Mexico: Support to FIRA for the Design of an Energy Efficiency Financing Strategy for the Food Processing Industry (IDB) CTF

Dear Patricia,

The UK would like to thank the government of Mexico and the IDB for submitting this project preparation grant, which it endorses.

Could the admin unit please let us know what type of information will be reported through the semi-annual operational reporting process for this PPG as it is not linked to a CTF project?

Best Regards

Simon
