Comments from the UK-- Approval by Mail: PPCR Dominica: Regional Disaster Vulnerability Reduction Program (IBRD)

Dear colleagues

The UK is content to approve this project. The proposal makes a good case for the 'additionality' of the climate spend to change the way infrastructure is rehabilitated. We welcome the capacity building elements. We are also pleased to see that a Social Assessment is currently underway, and that one of the development objectives of the project includes monitoring of male and female beneficiaries.

Many thanks,

Anna
