Comments from the United Kingdom on Approval by Mail: Niger: Water Resources Mobilization and Development Project (PROMOVARE) (AfDB)

Dear CIF admin unit

Thank you for circulating this response to our and Germany's comments on this project. We are content for the project to go to approval but would still like to see the issues we have raised addressed in implementation. I have asked for further comments on this response from the country desk but they are not able to provide them by this deadline, so I will send them to follow, hopefully by cop tomorrow

Many thanks

Juliet Field
