

Forest Investment Programme (FIP) and REDD+ National Process in DRC

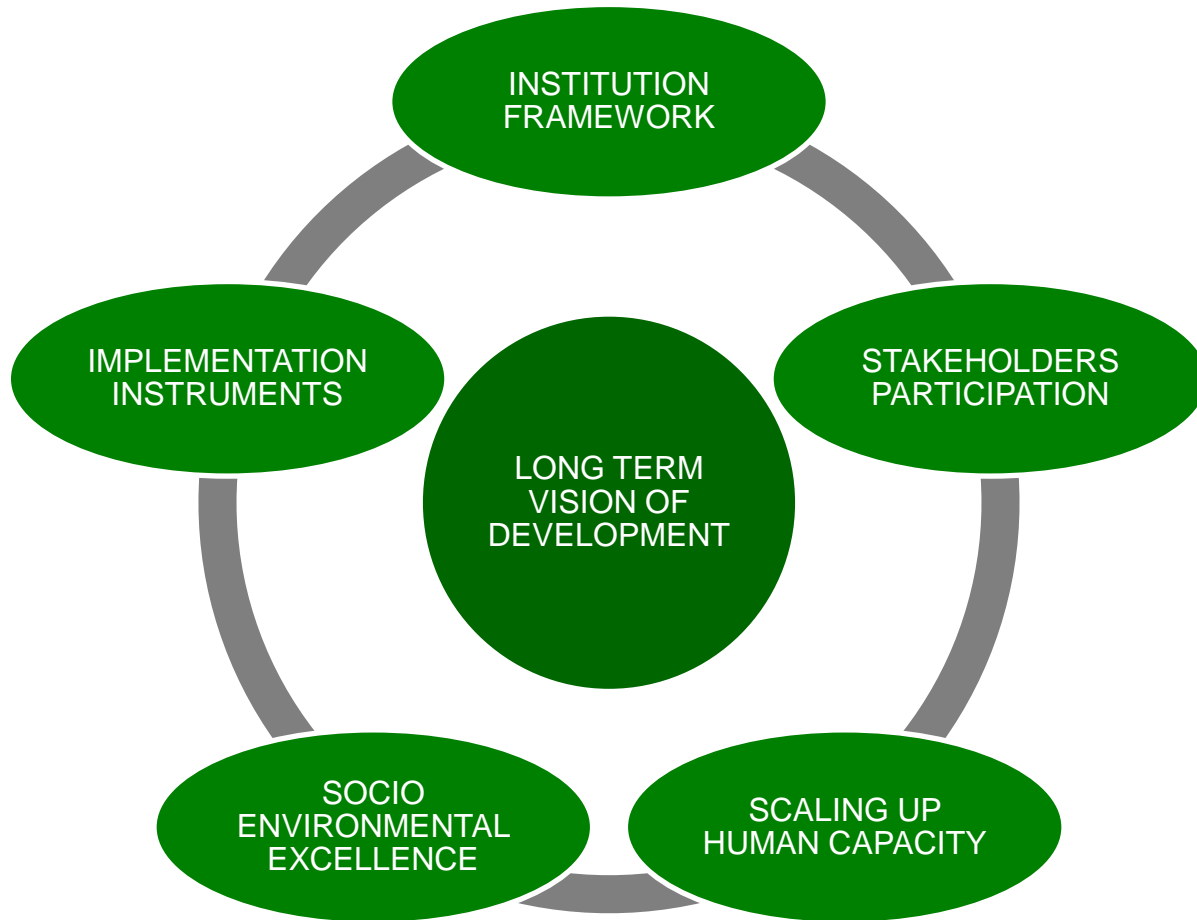

Ministry of Environment, Nature Conservation and Tourism

UN-REDD
PROGRAMME

Victor Kabengele
Projects Coordinator
FIP – Pilot country meeting
November 7th 2010 Washington DC

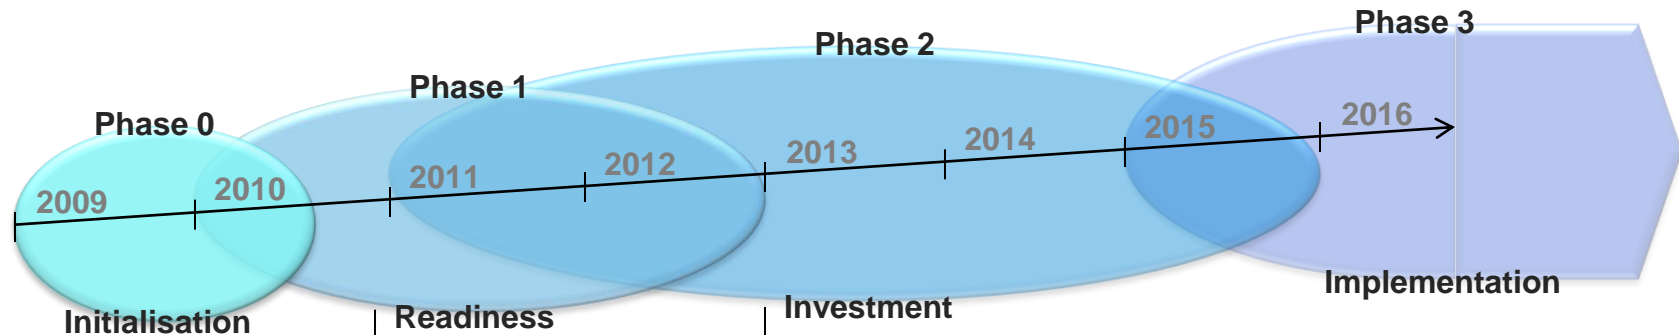

The REDD+ national process set the foundations for the success of FIP in DRC

Organisation and Outlooks of REDD Process in DRC

- DRC is in readiness phase for REDD (2010-2012), and pave the way to enter simultaneously in the investment phase (2011-2015)
- At present, the REDD process in DRC is built on four components. The first three components encompasses the work for the readiness phase, while the fourth component engage the investment phase

Global roadmap for the REDD process in DR Congo

- C1: National coordination, management, IEC, consultations and mobilisation, local empowerment
- C2: Building national strategy and underlying technical, legal and institutional instruments
- C3: Designing and implementing pilot projects
- C4: Designing and implementing programmes anticipating the future REDD strategy
