

CLIMATE INVESTMENT FUNDS

Session 1

Maintaining a Programmatic Approach in the Implementation of the PPCR Strategic Plans

Objectives of the Programmatic Approach

- support national and regional efforts towards a climate resilient development;
- foster systemic and transformational changes in sectors and across sectors affected by the impacts of climate change and vulnerability;
- involve relevant stakeholders and work towards a common vision;
- create synergetic benefits and results which will go above and beyond individual project results.

- National coordination mechanism
- Comprehensive stakeholder engagement platform which includes the private sector
- Knowledge management
- Results monitoring and adaptive management
