[FOR REVIEW] REVISED PPCR Results Framework

Dear PPCR Sub-Committee Members and Focal Points,

You will recall that as part of the *Measures to Improve the Operations of the CIF* approved by the joint meeting of the CTF and SCF Trust Fund Committees in November 2011, it was agreed that "simplified results frameworks should be prepared for consideration by the governing bodies, taking into account feedback from countries and the MDB country teams. Three to five core indicators should be agreed for each program".

The CIF Administrative Unit has been working with the PPCR MDB Committee to prepare a draft of a simplified results framework for the PPCR. Similar work has been on-going to produce revised results frameworks for the CTF and FIP. A simplified results framework for SREP was approved by the SREP Sub-Committee in May. The preparation of the draft for the PPCR has also benefitted from discussions with PPCR pilot countries during their meeting in Zambia in March 2012.

In reviewing this document, we would like to request you to:

- a) review the logic model and the results framework and provide us with any suggestions for improvement. The logic model (figure 1) has been revised to give more emphasis to adaptive capacity and institutional frameworks to deal with vulnerability;
- b) review the proposed indicators with particular attention to: (i) reliability and validity of the proposed indicators and their relationship to the results statements, and (ii) comprehensiveness of the framework; and
- c) review the reporting structure - outlined in paragraphs 12-13 and annex I and II.

We will take all comments into account to prepare a final proposal for a simplified results framework which will be posted as a document for consideration at the next meeting of the PPCR Sub-Committee in Istanbul on November 1, 2012. We will also use the opportunity of the PPCR pilot countries meeting on October 30, 2012, to seek further comments and insights from the pilot countries, and we will report to the Sub-Committee on those consultations.

We would appreciate it if you could send your comments and suggestions to us by **September 17, 2012**.

The document will also be posted on the CIF website during this consultative period. We will also be sharing the draft with the PPCR Sub-Committee for their review and comment.

Regards,

Patricia Bliss-Guest
Program Manager
Administrative Unit, Climate Investment Funds
