[FOR REVIEW] REVISED CTF Results Framework

Dear CTF Trust Fund Committee Members,

You will recall that as part of the *Measures to Improve the Operations of the CIF* approved by the joint meeting of the CTF and SCF Trust Fund Committees in November 2011, it was agreed that "simplified results frameworks should be prepared for consideration by the governing bodies, taking into account feedback from countries and the MDB country teams. Three to five core indicators should be agreed for each program".

The CIF Administrative Unit has been working with the CTF MDB Committee to prepare a draft of a simplified results framework for the CTF. Similar work has been on-going to produce revised results frameworks for the PPCR and FIP. A simplified results framework for SREP was approved by the SREP Sub-Committee in May. The preparation of the draft for the CTF Trust Fund Committee benefitted greatly from the experiences of the MDBs with the CTF countries in preparing the IPs.

In reviewing this document, we would like to request you to:

- a) review the logic model and the results framework and provide us with any suggestions for improvement. The logic model (figure 1) has been revised to give more emphasis to GHG emission reduction/avoidance and low carbon development finance besides renewable energy, energy efficiency and transport objectives of the CTF.
- b) review the proposed indicators with particular attention to: (i) reliability and validity of the proposed indicators and their relationship to the results statements, and (ii) comprehensiveness of the framework; and
- c) review the reporting structure - outlined in paragraphs 12-13 and annex I and II.

We will take all comments into account to prepare a final proposal for a simplified results framework which will be posted as a document for consideration at the next meeting of the CTF Trust Fund Committee in Istanbul on November 3, 2012. We will also use the opportunity of the CTF pilot countries meeting on November 1, 2012, to seek further comments and insights from the pilot countries, and we will report to the Trust Fund Committee on those consultations.

We would appreciate it if you could send your comments and suggestions to us by **September 24, 2012**.

The document will also be posted on the CIF website during this consultative period. We will also be sharing the draft with the CTF Country Focal Points for their review and comments.

Best regards,

Patricia Bliss-Guest
Program Manager
Administrative Unit, Climate Investment Funds
