**Approval by Mail: SREP Mali: Project for Scaling up Renewable Energy in Mali (PAPERM)
(AfDB)**

Dear Mafalda,

We have no-objection to the allocation of USD 1'500'000 SREP grant for technical assistance, in three components:

1. Improvement of the policy, legal, regulatory and institutional framework for the scaling-up of RE investments
2. Capacity building, knowledge management, communication and advocacy
3. Sub-sector monitoring and evaluation, project management and strategic coordination of the SREP-Mali programme

This technical assistance project, which is also co-financed by SEFA (Sustainable Energy for Africa), the Government of Mali and the beneficiaries, will significantly contribute to the objective of improving the enabling environment for renewable energy in Mali which is an important goal of the SREP.

Thank you and best regards
Daniel
