

# CLIMATE INVESTMENT FUNDS

June 10, 2016

---

**[APPROVAL BY MAIL]: BUILDING RESILIENCE OF MOZAMBIQUE'S POWER SECTOR  
THROUGH PRIVATE SECTOR INVESTMENT (PPCR) (IFC)**

**Comments Received from the United Kingdom**

Dear Mafalda,

Thanks to IFC for responding to our comments so quickly, it was much appreciated.

The UK is content to approve this project. We would also suggest that it might be of benefit to consider energy efficiency measures to enhance cost effectiveness as part of project implementation, particularly as this concerns a municipality designated as a Special Economic Zone – we would be happy to discuss further.

Best wishes,  
Emma
