**Comments from the United Kingdom on Approval by mail: CTF funding for Chile:
Concentrated Solar Power Project (IDB)**

Dear Patricia,

The UK is happy to approve the above project.

We would like to note that this is a project that meets the CTF aims in that it supports the deployment of a technology where we are off-track globally, according to the IEA's 2 degree scenarios.

We would also like the project team to measure and monitor the jobs created through the project as one of the key developmental indicators.

Kind regards

Simon
