Introduction

The Climate Investment Funds (CIF) were established in 2008 and its financial architecture is rooted in two trust funds. The Clean Technology Fund (CTF) aims to provide scaled-up financing to contribute to the demonstration, deployment, and transfer of low-carbon technologies with a significant potential for long-term greenhouse gas emissions savings. The Strategic Climate Fund (SCF) aims to provide financing to pilot new development approaches or scale-up activities aimed at a specific climate change challenge or sectoral response. The SCF currently finances three such programs: the Forest Investment Program (FIP), Pilot Program for Climate Resilience (PPCR), and Scaling Up Renewable Energy in Low-Income Countries Program (SREP).

The World Bank acts as the Trustee for the CIFs. This report is produced by the Trustee based on financial information as of March 31, 2017, in accordance with the Trustee's role as set forth in the Governance Framework for the CTF which states:

“The Trustee will provide to the CTF Trust Fund Committee regular reports on the financial status of the Trust Fund, as agreed between the Trustee and the CTF Trust Fund Committee.”

This report provides (i) a snapshot of the financial status of the CTF Trust Fund as of March 31, 2017; (ii) the status of pledges and contributions, and (iii) the details of financial activities of the CTF Trust Fund.

CTF Trust Fund Financial Summary as of March 31, 2017¹

Pledges and Contributions:

As of March 31, 2017, nine contributors pledged USDeq. 5.4 billion to the CTF Trust Fund, which has been fully finalized through signed Contribution/Loan Agreements/Arrangements. Of the total amount of executed Contribution/Loan Agreements/Arrangements, the Trustee has received USDeq. 5.4 billion in cash and promissory notes.

Investment Income and Return of Other Funds:

Since inception through March 31, 2017, the CTF Trust Fund earned investment income of approximately USD 139 million on the undisbursed balance of the Trust Fund. In addition, the return of other funds amounted to USDeq. 6 million.

Trustee Commitments:

The Trustee makes commitments in the CTF Trust Fund based on the funding approvals of the CTF Trust Fund Committee. Cumulative net commitments made by the Trustee amounted to USDeq. 4.85 billion. This represents a decrease of USDeq. 175 million due to the net commitment cancellations since October 31, 2016. Of the total amount approved, USDeq. 4.76 billion was for projects and project preparation activities, USD 33 million was for MDB costs for project implementation and supervision services (MPIS costs), and USD 59 million was for administrative expenses of the CTF.

Cash Transfers:

Cash transfers are made to MDBs² on an as-needed basis to meet their projected disbursement requirements. The Trustee has transferred USDeq. 2.8 billion, of which USDeq. 0.2 billion was transferred between November 1, 2016 and March 31, 2017. As a result, USDeq. 2.1 billion remains payable to MDBs as of March 31, 2017.

Cash transfers related to the debt service payments to loan contributors is USDeq. 47.2 million as of March 31, 2017.

Funds Held in Trust:

Funds Held in Trust reflect financial activities related to donor payments (cash and promissory notes), encashment of promissory notes, investment income, cash transfers, and the revaluation of the balance of promissory notes at month end. Funds Held in Trust as of March 31, 2017 amounted to USDeq. 2.8 billion, out of which USDeq. 141 million is withheld for commitment purposes to mitigate the effects of foreign exchange rate movements on outstanding commitments. In addition, the net balance available for payments to the loan contributors from the net reflows is

¹ Figures may not add up due to rounding.

² The CIF are disbursed through the Multilateral Development Banks (MDBs) to support effective and flexible implementation of country-led programs and investments. The MDBs include the African Development Bank (AfDB), the Asian Development Bank (ADB), the European Bank for Reconstruction and Development (EBRD), the Inter-American Development Bank (IADB), the International Bank for Reconstruction and Development (IBRD)/International Development Association (IDA) (the World Bank), and the International Finance Corporation (IFC).

USDeq. 55 million of which 8 million is to pay for the principal and interest payments due to the loan contributors in the next 12 months.

Funding Availability for Trustee Commitments:

The funding available for Trustee Commitments is USDeq. 535.6 million, of which USDeq. 86.5 million is the net investment income available for future admin expenses and loan losses. The balance USDeq. 449.1 million is available for Program and Project commitments.

Potential Available Resources (FY17-21):

The pipeline of projects and projected admin expenses for CTF as provided by CIFAU amounted USDeq. 830 million including the reserve pipeline of USDeq. 243.5 million. Out of the total pipeline amount of USDeq. 830 million, the sealed pipeline up to June 2017 is USDeq. 488.8 million. The potential future resources of projected investment income and the release of the reserve amount is USDeq. 193.09 million. The net potential available resources for Project and Program approvals as of FY 21 is USDeq. (239.42) million and the net potential available resources for Admin expenses and loan losses as of FY21 is USDeq. 110.84 million.

Realized/Unrealized Exchange rate gain or loss (USDeq.):

The uncashed promissory notes in non-USD currencies are subject to exchange rate risk. Due to changes in the GBP/USD exchange rate from November 1, 2016 to March 31, 2017, the unrealized loss in the USDeq. value decreased by USDeq. 21 million. The unrealized loss amounted to USDeq. 231 million as of March 31, 2017 compared to USDeq. 252 million as of October 31, 2016. The overall unrealized loss of USDeq. 231 million resulted in a decrease in the funding available for Trustee commitments.

b/ France pledged USD 500 million, including: 1) concessional loan of USD 300 million (equivalent to EUR 203 million) and 2) USD 200 million in co-financing from the French Development Agency (ADF). The second commitment was fulfilled with ADF loans to solar power projects of South Africa (USD 144 million in January 2012) and Morocco (USD 124 million in July 2011) under the Clean Technology Fund. The concessional loan is valued on the basis of exchange rates as of February 28, 2017

c/ The EUR 500 million pledge was committed in USD in the amount of USD 615 million.

d/ The USD 1 billion pledge was committed in JPY in the amount of JPY 93 billion. The total amount received is USDeq. 1.056 billion

e/ Represents the amount pledged under the Strategic Climate Fund and allocated to the Clean Technology Fund.

f/ The total pledge made by the United States to the CIF is USD 2 billion; the allocation across the programs is indicative.

g/ Includes cash receipts and encashed promissory notes.

- The above table shows the summary of pledges/promissory notes outstanding, contributions finalized, Cash and Promissory Note receipts and promissory notes outstanding. Pledges represent a Contributor's expression of intent to make a contribution and form the basis for the endorsement of CTF Investment Plans by the CTF Trust Fund Committee.
- As of March 31, 2017, total pledges and contributions amounted to USDeq. 5.38 billion based on Contribution/Loan Agreements/Arrangements entered into by the Trustee with nine contributors.
- The Cash and Promissory Notes received amounted to USDeq. 5.38 billion as of March 31, 2017.
- In May 2017, GBP 240 million promissory note from the United Kingdom has been encashed. The unencashed promissory note balance after this encashment is GBP 517 million.

2. Asset Mix and Investment Income

The undisbursed cash balance of the CTF Trust Fund is maintained in a commingled investment portfolio (“Pool”) for all trust funds managed by IBRD. The Pool is managed actively and conservatively with capital preservation as the over-arching objective.

ASSET MIX

CTF Trust Fund assets are invested across three of the World Bank Trust Fund’s investment model portfolios, (“Tranche 0” for short term working capital needs, “Tranche 1” with an investment horizon of one year, and “Tranche 2” with an investment horizon of three years). The latter two tranches aim to optimize investment returns subject to capital preservation with a high degree of confidence (based on statistical models) over the respective investment horizon. Although actual future returns will depend on market conditions, the Trust Fund Investment Pool portfolio is actively monitored and adjusted to preserve development partner funds over the investment horizons. Over shorter periods however, market volatility may result in negative actual or ‘mark-to-market’³ returns.

On July 1, 2015, the World Bank formally adopted the Conditional Value-at-Risk (CVaR) measure as the risk constraint in the management of trust funds. Funds are managed such that the expected maximum loss, as measured by the CVaR, at the portfolio’s investment horizon, is not to exceed 1% with 99%.

The portfolio allocation by asset class has the largest allocations to government securities, money market instruments, mortgage backed securities (MBS), agency, asset backed securities and corporate bonds. The allocations have been relatively stable over time.

Note: The negative position in swaps is primarily due to changes in foreign currency exchange (FX) rates in cross currency basis swaps. Such swap instruments are used to implement currency hedges on bond positions within the portfolio. These hedges remain in place.

³ Mark-to-market returns or losses represent returns or losses generated through an accounting entry rather than the actual sale of a security.

INVESTMENT RETURNS

CTF Trust Fund investment returns have been modest for calendar year-to-date 2017 with a cumulative return of 0.40% to date. Overall, the CTF Trust Fund cumulative returns have been driven by its investment in longer term tranches, which may be exposed to higher volatility in returns over shorter periods. Returns are expected to be low going forward as the risk of rising market yields continues to be elevated, with an adverse effect on total portfolio returns due to lower bond prices.

*YTD non-Annualized

ADJUSTMENTS FOR CHANGES IN MARKET CONDITIONS

As a gradual move to higher rates in the coming years is expected, the outlook for fixed-income investments continues to be for low returns, as increases in market interest rates could result in unrealized (i.e., mark-to-market) losses for fixed income returns in general. Given the challenging environment for fixed income investments, the Trustee has taken steps to reduce the interest rate sensitivity of the Trust Fund Investment Pool portfolio to limit the impact of potential future interest rate increases (known as “duration”). Additionally, efforts are underway by the Trustee and CIFAU to enable investments in a broader universe of assets in order to achieve greater diversification of portfolio risks and increase returns. Diversification opportunities include emerging market sovereign bonds, covered bonds and new money market instruments.

3. Cumulative Net Commitments

In USD millions

Total Net Commitments by the Trustee by Activity

Since inception to March 31, 2017, the net commitments made by the Trustee based on the funding approvals of CTF Trust Fund Committee totaled USD eq. 4.85 billion. Projects, including project preparation grants represent about 98%, MPIS costs 1%, administrative budgets for the CIF Administrative Unit, and the Trustee and the MDBs 1%.

Net Project and Program Commitments by MDB

CTF FUNDING LIMITS

In accordance with the Principles regarding Contributions to the CTF, outgoing financing cannot be more concessional than contributed funds, i.e:

- (a) Grant Contributions may be used to finance grants, concessional loans and other financial products, such as guarantees.
- (b) Capital Contributions may be used to finance concessional loans and other financial products, such as guarantees;
- (c) Loan Contributions may be used to finance loans and other financial products, such as guarantees, on terms no more concessional than the terms of the contributions.

This chart shows pledges by contribution type and CTF funding (excluding projects in the pipeline) by financing product. As shown in the chart, funding decisions made to date adhere to the funding limits set by the incoming funding types from the Contributors.

Highlights for the period November 1, 2016 through March 31, 2017:

- **Funds Held in Trust** represent cumulative receipts less cumulative cash transfers, and amount to USDeq. 2.77 billion as of March 31, 2017. Funds Held in Trust decreased by USDeq. 111 million since November 1, 2016 primarily due to:
 - cash transfers to MDBs of USDeq. 195 million during the period
 - receipt of additional investment income earned during the period totaling USD 5 million
 - increase in the USDeq. value of unencashed promissory notes by USDeq. 83 million that arose from the receipt of new promissory note amounting to GBP 50.5 million (USDeq. 62.9 million), and revaluation of the USDeq. of unencashed promissory notes.
- **Trustee Commitments Pending Cash Transfer** amount to USDeq. 2.1 billion, decreased by USDeq. 375 million since November 1, 2016.
- **Funds available to support Trustee commitments** amount to USDeq. 535 million, representing an increase of USDeq. 251 million since November 1, 2016. The increase was mostly due to the commitment cancellations of USDeq. 175 million since November 1, 2016. Of the amount available, the amount for admin expenses and loan losses is USDeq. 86.5 million. The amount available for program/project commitments is USDeq. 449.1 million.
- **Funds available to support payments to loan contributors** amount to USDeq. 55 million. of which the amount restricted to cover the payments in the next 12 months is USDeq. 8 million.
- The funds restricted to cover the impact of foreign exchange fluctuations on commitments made by the Trustee amounted to USDeq. 141 million.
