CTF/TFC.8/CRP.1

November 3, 2011

---

Meeting of the CTF Trust Fund Committee

Washington, D.C.

November 4, 2011

NOTES FROM OMAR NUNEZ, CSO, OBSERVER TO THE CTF TRUST FUND COMMITTEE

Tegucigalpa, Honduras  
October 31, 2011

Dear members of CIF,

I'm writing hoping that you will excuse my absence, given that my presence here in Honduras at the head of AHJASA is extremely necessary this week.

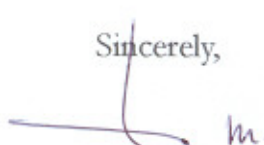

The recent tropical storm has left more than 20,000 people without home in the member communities of our association. Part of this population is still living in shelters outside of their communities and their water and sanitation systems were damaged and they don't have access to these services. We want to improve these conditions because they lost much, including crops, and we at least wish to reduce illnesses and other situations that are coming up especially in the most vulnerable populations.

I hope to send my comments on the analysis that comes from the documents that you have sent in whatever way is best.

Also, I'd like to let you know that during the last three months I was able to travel in several countries in Latin America and was able to meet with more than 400 leaders in various forums, from Mexico to Argentina. Each time I took advantage of the opportunity to present about CIF, especially CIF's objectives.

Thank you for understanding and I wish you much success in the various events that you will undertake in this meeting,

Sincerely,

m.

Omar Núñez  
Executive Director
