Introduction

The Climate Investment Funds (CIF) were established in 2008 and its financial architecture is rooted in two trust funds. The Clean Technology Fund (CTF) aims to provide scaled-up financing to contribute to the demonstration, deployment, and transfer of low-carbon technologies with a significant potential for long-term greenhouse gas emissions savings. The Strategic Climate Fund (SCF) aims to provide financing to pilot new development approaches or scale-up activities aimed at a specific climate change challenge or sectoral response. The SCF currently finances three such programs: the Forest Investment Program (FIP), Pilot Program for Climate Resilience (PPCR), and Scaling Up Renewable Energy in Low-Income Countries Program (SREP).

The World Bank acts as the Trustee for the CIFs. This report is produced by the Trustee based on financial information as of September 30, 2018, in accordance with the Trustee's role as set forth in the Governance Framework for the SCF which states:

"The Trustee will provide to the SCF Trust Fund Committee, and, to the extent applicable, any SCF Sub-Committee, regular reports on the financial status of the Trust Fund, as agreed between the Trustee and the SCF Trust Fund Committee, or as the case may be the relevant SCF Sub-Committee."

Regular financial reporting is provided through the Trustee's website: <u>www.fiftrustee.worldbank.org</u>. This report has been prepared specifically for the SCF Trust Fund Committee (TFC) to provide: (i) a snapshot of the financial status of the SCF Trust Fund as of September 30, 2018; (ii) the status of pledges and contributions, and (iii) the status of the SCF Programs: FIP, PPCR, SREP and Evaluation and Learning.

a/ This amount represents USD equivalent of GBP 337.1 million from the UK.

b/ approved by the SCF TFC to end FY18 (net of cancellations) including USD 31.10 million for Country Programing budget.

c/ This refers to cancellation of program and project commitments approved by the SCF TFC.

d/ Amounts withheld to mitigate over-commitment risk resulting from the effects of currency exchange rate fluctuations on the value of outstanding non-USD denominated promissory notes.

e/ The amount of this reserve is estimated by the CIFAU and Trustee using the 10-year forecast of the Admin Budget less the 10-year estimate of Investment Income and reflows. Pro-rata estimates across three SCF programs are based on the 41%, 37% & 22% fixed pro rata share of the PPCR, SREP & FIP cash balance as at December 31, 2017 approved by the SCF TFC on March 8, 2018.

f/ Anticipated commitments for SREP program includes both Sealed and Reserve pipeline.

g/ The balance of the pledge amount from the U.S.

h/ The usage of reflow from MDBs are approved by the SCF TFC on March 8, 2018 to cover the shortfall in administrative expenses net of the SCF investment income.

b/ Of the EUR 59.45 contribution to SCF, EUR 9.45 million was subsequently transferred from the SCF Trust Fund to other trust funds, at the instruction of the contributor.

c/ The USD 200 million pledge was committed in JPY in the amount of JPY 19 billion.

d/ The total contribution finalized by the United Kingdom through the SCF is GBP 2.1 billion, which includes allocation of GBP 1130 million to CTF, GBP 3.5 million to Readiness Fund of the Forest Carbon Partnership Facility (FCPF), GBP 11.5 million to Carbon Fund of the FCPF and GBP 50 million to the Congo Basin Fund.

e/ The total pledge made by the United States to the CTF and SCF is USD 2 billion

f/ Includes cash receipts and encashed promissory notes.

Note: Totals may not add due to rounding

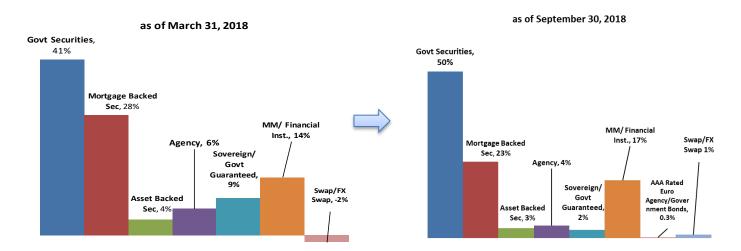

1.2.Asset Mix and Investment Returns and Adjustment for Changes in Market Conditions

The undisbursed cash balance of the SCF Trust Fund is maintained in a commingled investment portfolio ("Pool") for all trust funds managed by IBRD. The Pool is managed actively and conservatively with capital preservation as the over-arching objective.

ASSET MIX

SCF Trust Fund assets are invested across three of the World Bank Trust Fund's investment model portfolios, ("Model Portfolio 0" for short term working capital needs, "Model Portfolio 1" with an investment horizon of one year, and "Model Portfolio 2" with an investment horizon of three years). The latter two model portfolios aim to optimize investment returns subject to capital preservation with a high degree of confidence (based on statistical models) over the respective investment horizon. Although actual future returns will depend on market conditions, the Trust Fund Investment Pool portfolio is actively monitored and adjusted to preserve development partner funds over the investment horizons. Over shorter periods however, market volatility may result in negative actual or 'mark-to-market'¹ returns.

On July 1, 2015, the World Bank formally adopted the Conditional Value-at-Risk (CVaR) measure as the risk constraint in the management of trust funds. Funds are managed such that the expected maximum loss, as measured by the CVaR, at the portfolio's investment horizon, is not to exceed 1% with 99% confidence. The portfolio allocation by asset class has the largest allocations to government securities, money market and mortgage backed securities (MBS).

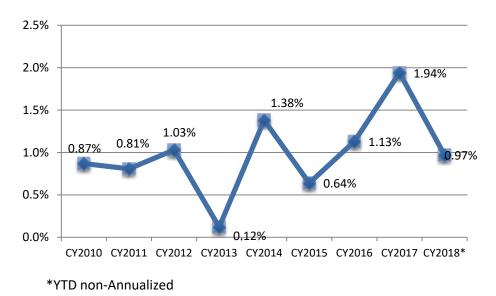

<u>Note:</u> The negative position in swaps is primarily due to changes in foreign currency exchange (FX) rates in cross currency basis swaps. Such swap instruments are used to implement currency hedges on bond positions within the portfolio. These hedges remain in place.

¹ Mark-to-market gains or losses represent unrealized gains or losses resulting from changes in the value of securities in the portfolio which have not yet been sold.

INVESTMENT RETURNS

The SCF Trust Fund achieved a calendar year-to-date 2018 return of 0.97%. Returns in the first three quarters of 2018 were driven by headline risks related to the threat of escalating trade tensions, geopolitics and the knock on effects on global growth.

ADJUSTMENTS FOR CHANGES IN MARKET CONDITIONS

As a gradual move to higher rates in the coming years is expected, the outlook for fixed-income investments continues to be for low returns, as increases in market interest rates could result in unrealized (i.e., mark-to-market) losses for fixed income returns in general. Given the challenging environment for fixed income investments, the Trustee has taken steps to reduce the interest rate sensitivity (known as "duration") of the Trust Fund Investment Pool portfolio to limit the impact of potential future interest rate increases. The short maturity/duration nature of the portfolio gives space and flexibility to tactically move into higher yields going forward. Additionally, efforts are underway by the Trustee to enable investments in a broader universe of assets to achieve greater diversification of portfolio risks and increase returns. Diversification opportunities include emerging market sovereign bonds, covered bonds and new money market instruments.

1.3. Cumulative Net Commitments

Total Net Commitments by the Trustee by Activity

As of September 30, 2018, based on the funding approvals by the SCF Trust Fund Committee, or the SCF Sub-Committee as appropriate, the Trustee has made net commitments totaling USD 2.39 billion. Of this amount, USD 146.6 million represents net commitments for administrative budget including the Country Programming budget of USD 31.10 million under the relevant SCF Programs, USD 2.23 billion for projects, preparation grants and MDB costs for project implementation and supervision services (MPIS costs), and USD 7.5 million for the Evaluation and Learning program.

Net Project and Program Commitments by Program

Net commitments made by the Trustee totaled USD 2.23 billion for projects, investment plan preparation and MPIS costs, of which USD 0.57 billion was committed under the FIP, USD 1.06 billion under the PPCR, and USD 0.6 billion under the SREP.

a/ Cash contributions amounting to GBP 15 million (USDeq. 24.5 million based on exchange rate on May 10, 2011) received as capital contributions are available to finance grants (including administrative costs) according to the terms of the contribution agreements/arrangements.

b/ From Feb 1, 2016, Investment income across all SCF programs has been posted to a notional Admin "account", from which approved Administrative Budget expenses for the Trustee, Secretariat and MDBs are committed. The Country Programming budgets are recorded under individual programs.

c/ This refers to cancellation of program and project commitments approved by the committee. Also includes any commitment cancellations to adjust changes to the previous approvals.

d/ Amounts withheld to mitigate over-commitment risk resulting from the effects of currency exchange rate fluctuations on the value of outstanding non-USD denominated promissory notes.

e/ The Loan commitment for "Niger community project" has been funded partially by USD 1.8 million from the Grant resources, which is allowed as per the SCF governance framework. Any additional cancellations in Capital projects also results in further reduction in the usage of grant resources for the capital project.

f/ The amount of this reserve is estimated by the CIFAU and Trustee using the 10-year forecast of the Admin Budget less the 10-year estimate of Investment Income and reflows. Pro-rata estimates across three SCF programs are based on the 41% fixed pro rata share of the PPCR's cash balance as at December 31, 2017 approved by the committee on March 8, 2018. The decision reads as "allocate USD 10.6 million from the available grant resources in the PPCR Program Sub-Account to finance estimated Administrative Costs from FY19 to FY28, such that the projected, indicative amount of approximately USD 16.3 million in PPCR grant resources remains available for allocation to PPCR project's".

g/ The usage of reflow from MDBs are approved by the SCF TFC on March 8, 2018 to cover the shortfall in administrative expenses net of the SCF investment income.

a/ Promissory Notes amounting to GBP 19.84 million received as capital contributions are available to finance grants (including administrative costs) according to the terms of the contribution agreements/arrangements. The Promissory Notes are valued as of September 30, 2018 exchange rate.

b/ This amount includes USD equivalent of GBP 157.5 million from the UK.

c/ From Feb 1, 2016, Investment income across all SCF programs has been posted to a notional Admin "account", from which approved Administrative Budget expenses for the Trustee, Secretariat and MDBs are committed. The Country Programming budgets are recorded under individual programs.

d/ This refers to cancellation of program and project commitments approved by the SCF TFC.

e/ Amounts withheld to mitigate over-commitment risk resulting from the effects of currency exchange rate fluctuations on the value of outstanding non-USD denominated promissory notes.

f/ The amount of this reserve is estimated by the CIFAU and Trustee using the 10-year forecast of the Admin Budget less the 10-year estimate of Investment Income and reflows. Pro-rata estimates across three SCF programs are based on the 37% fixed pro rata share of the SREP's cash balance as at December 31, 2017 approved by the SCF TFC on March 8, 2018. The decision reads as "allocate USD 31.6 million from the available grant resources in the SREP Program Sub-Account to finance estimated Administrative Costs from FY19 to FY28, such that the projected, indicative amount of approximately USD 59.6 million in SREP grant resources remains available for allocation to SREP projects".

g/ Includes both sealed and Reserve pipeline
