[Approval by mail]: Ghana Public-Private Partnership for the restoration of Degraded Forest Reserve (AfDB) FIP - PFIPGH504A
Comments received from the United States

Dear Mafalda,

We appreciate the additional information provided by the AfDB. We can support the approval of the project today, but would stress the need to take measures, such as those suggested by the Bank in the additional information it provided, to increase the potential for replication, both in Ghana and in other countries.

Best,

Katie Berg
US Treasury Department
