## Introduction

The Climate Investment Funds (CIF) were established in 2008 and comprise two trust funds. The Clean Technology Fund (CTF) provides resources to scale up low-carbon technologies with a significant potential for long-term greenhouse gas emissions savings. The Strategic Climate Fund (SCF) provides financing to pilot new development approaches or scale-up activities aimed at a specific climate change challenge or sectoral response. The SCF currently finances three such programs: The Forest Investment Program (FIP), Pilot Program for Climate Resilience (PPCR), and Scaling Up Renewable Energy in Low-Income Countries Program (SREP).

The World Bank acts as the Trustee for the CIFs. This report is produced by the Trustee based on financial information as of September 30, 2021, in accordance with the Trustee's role as set forth in the Governance Framework for the SCF which states:

*"The Trustee will provide to the SCF Trust Fund Committee, and, to the extent applicable, any SCF Sub-Committee, regular reports on the financial status of the Trust Fund, as agreed between the Trustee and the SCF Trust Fund Committee, or as the case may be the relevant SCF Sub-Committee."*

Regular financial reporting is provided through the Trustee's website: [www.fiftrustee.worldbank.org](http://www.fiftrustee.worldbank.org). This report has been prepared specifically for the SCF Trust Fund Committee (TFC) to provide: (i) a snapshot of the financial status of the SCF Trust Fund as of September 30, 2021; (ii) the status of pledges and contributions, and (iii) the status of the three SCF Programs (FIP, PPCR, SREP).

## 1.2. Asset Mix and Investment Income and ESG Summary Report

The undisbursed cash balance of the SCF Trust Fund is maintained in a commingled investment portfolio (“Pool”) for all trust funds managed by IBRD. The Pool is managed actively and conservatively with capital preservation as the over-arching objective.

### ASSET MIX

SCF Trust Fund assets are invested across three of the World Bank Trust Fund’s investment model portfolios, (“Model Portfolio 0” for short-term working capital needs, “Model Portfolio 1” with an investment horizon of one year, and “Model Portfolio 2” with a broader investment universe and an investment horizon of three years). The investment objectives for the SCF Trust Fund are to optimize investment returns subject to preserving capital and maintaining adequate liquidity to meet foreseeable cash flow needs, within a conservative risk management framework<sup>1</sup>. Although actual future returns will depend on market conditions, the Trust Fund Investment Pool is actively monitored and adjusted to preserve development partner funds over the investment horizons. Over shorter periods however, market volatility may result in negative actual or ‘mark-to-market’<sup>2</sup> returns. Overall, the SCF Trust Fund cumulative returns have been driven by its investment in longer-term model portfolios, which may be exposed to higher volatility in returns over shorter periods but are expected to have higher returns over longer periods.

As of September 30, 2021, the portfolio allocation by asset class has the largest allocations to government securities, mortgage-backed securities (MBS), agency and covered bonds.

<sup>1</sup> Risk tolerance is defined as the expected maximum loss, as measured by the Conditional Value-at-Risk (CVaR), at the portfolio’s investment horizon, not to exceed 1% at portfolio’s investment horizon, with 99% confidence.

<sup>2</sup> Mark-to-market gains or losses represent unrealized gains or losses resulting from changes in the value of securities in the portfolio which have not yet been sold.

### INVESTMENT RETURNS

The SCF Trust Fund liquid portfolio earned USD 152.1 million in investment income since inception. The portfolio returns through September of calendar year 2021 were 0.10% (non-annualized). The low returns during the first nine months of CY2021 were due to rising yields, which have a negative impact on fixed income prices.

### ESG SUMMARY REPORT – STRATEGIC CLIMATE FUND INVESTMENT PORTFOLIO

The funds held in trust benefit from the approach to Sustainable and Responsible Investment (SRI), as defined in the Trustee's Sustainable and Responsible Investment (SRI) Statement, which considers and incorporates Environmental, Social, and Governance (ESG) factors into Trustee's investment processes. The implementation of ESG Integration falls within the purview of existing authorizations by the World Bank Board. Based on the endorsement by the World Bank management, starting from July 2019, the Trustee has applied ESG Integration as the default SRI approach for all portfolios managed by the World Bank, including for the Strategic Climate Fund assets. Considering and incorporating ESG factors into investment processes should, all things being equal, lead to portfolios that have stronger ESG profiles compared to portfolios that do not explicitly consider these ESG issues. ESG Integration has become part of the existing investment processes and is intended to help fulfil the existing investment objectives. The application of ESG Integration as part of the investment process would not involve any changes in the current investment objectives or risk limits for the Strategic Climate Fund portfolio. The SCF investment portfolio is primarily comprised of short-term high-grade fixed-income securities (sovereign, supranational and agency securities and bank deposits), and as of September 2021, the portfolio has an ESG Quality Score\* of 7.59 and an ESG Rating\* of AA. Based on its ESG positioning in the MSCI ESG Fund Ratings Universe (upper right of Figure 1), which is deemed to be the more consistent reference indicator, SCF's investment portfolio falls in the top quartile of the ratings universe. This reflects high capability of SCF portfolio's holdings in terms of managing key medium to long term risks and opportunities arising from Environmental, Social and Governance factors.

**Figure 1: MSCI ESG Portfolio Summary – Strategic Climate Fund**

**\*Note:** ESG Quality Score measures the ability of underlying holdings to manage key medium to long-term risks and opportunities arising from environmental, social, and governance factors. It is based on MSCI ESG Ratings and is measured on a scale of 0 to 10 (worst to best). The distribution of scores is based on the universe of approximately 28,000 funds included in MSCI ESG Fund Metrics. ESG Ratings Distribution represents the percentage of a portfolio’s market value coming from holdings classified as ESG Ratings Leaders (AAA and AA), Average (A, BBB, and BB), and Laggards (B and CCC). ESG Ratings Momentum represents the percentage of a portfolio’s market value coming from holdings that have had an ESG Ratings upgrade, and those with a downgrade, since their previous ESG Rating assessment. Please see details on MSCI ESG Ratings Methodology from: <https://www.msci.com/documents/1296102/4769829/MSCI+ESG+Ratings+Methodology+-+Exec+Summary+Dec+2020.pdf/15e36bed-bba2-1038-6fa0-2cf52a0c04d6?t=1608110671584>

## 1.3. Cumulative Net Commitments

### **Total Net Commitments by the Trustee by Activity**

As of September 30, 2021, based on the funding approvals by the SCF Trust Fund Committee, or the relevant SCF Sub-Committee as appropriate, the Trustee has made net commitments totaling USD 2.52 billion. Of this amount, USD 2.32 billion for projects, project preparation grants and MDB costs for project implementation and supervision services (MPIS), USD 202.64 million for Administrative and other commitments (USD 31.76 million for the Country Engagement budget, USD 150.94 million for administrative expenses, USD 7.7 million for the Evaluation and Learning program, and 12.25 million for Technical Assistance Facility.)

### **Net Project and Program Commitments by Program**

Net commitments made by the Trustee totaled USD 2.32 billion for projects, project preparation grants and MPIS costs, of which USD 0.64 billion have been committed under the FIP, USD 1.06 billion under the PPCR, and USD 0.62 billion under the SREP.

a/ Cash contributions amounting to GBP 15 million (USDeq. 24.5 million based on exchange rate on May 10, 2011) received as capital contributions are available to finance grants (including administrative costs) according to the terms of the contribution agreements/arrangements.

b/ From Feb 1, 2016, Investment income across all SCF programs has been posted to a notional Admin "account", from which approved Administrative Budget expenses for the Trustee, Secretariat and MDBs are committed. The Country Programming budgets are recorded under individual programs.

c/ This refers to cancellation of program and project commitments approved by the committee. Also includes any commitment cancellations to adjust changes to the previous approvals.

d/ The amount of this reserve is estimated by the CIFAU and Trustee using the 10-year forecast of the Admin Budget less the 10-year estimate of Investment Income and reflows. Pro-rata estimates across three SCF programs are based on the 41% fixed pro rata share of the PPCR's cash balance as at December 31, 2017 approved by the committee on March 8, 2018. The decision reads as "allocate USD 10.6 million from the available grant resources in the PPCR Program Sub-Account to finance estimated Administrative Costs from FY19 to FY28, such that the projected, indicative amount of approximately USD 16.3 million in PPCR grant resources remains available for allocation to PPCR project's". This reserve amount has been reduced by the approved amount of USD 0.7 million for the country engagement from January 2018.

e/ Commitments for the Technical Assistance Facility, as estimated by the CIFAU.

f/ The CTF and SCF Trust Fund Committees agreed on July 20, 2018 to establish the Technical Assistance Facility for Clean Energy Investment Mobilization under the terms of the SCF.

g/ Any payments of principal, interest from loans, which are due to be returned to the Trust Fund pursuant to the Financial Procedures Agreements consistent with the pertinent SCF funding approved by the SCF Trust Fund Committee. For the avoidance of doubt, the Reflow does not include any return of funds from SCF grants or Administrative Costs, including cancelled or unused funds, or any investment income earned on SCF resources held by any MDB. The usage of reflow from MDBs are approved by the SCF TFC on March 8, 2018 to cover the shortfall in administrative expenses net of the SCF investment income. The reflows includes the commitment fee, front end fee and late payment fee.

h/ Anticipated commitments as estimated by the CIFAU.

## The Climate Investment Funds

The Climate Investment Funds (CIF) were established in 2008 to mobilize resources and trigger investments for low carbon, climate resilient development in select middle and low income countries. To date, 14 contributor countries have pledged funds to CIF that have been channeled for mitigation and adaptation interventions at an unprecedented scale in 72 recipient countries. The CIF is the largest active climate finance mechanism in the world.
