

CLIMATE INVESTMENT FUNDS

PPCR/SC.7/8
October 28, 2010

Meeting of the PPCR Sub-Committee
Washington, D.C.
November 10, 2010

**REQUEST FOR INFORMATION ON DISBURSEMENTS TO PILOTS UNDER
THE PILOT PROGRAM ON CLIMATE RESILIENCE**

(Prepared by Ilana Solomon, ActionAid,
Civil Society Observer to the PPCR)

1. As the developed country observer to the PPCR, I am consistently receiving information requests from colleagues regarding the disbursements of the PPCR. While I understand that one can outreach to each MDB to get information on disbursements, as a key matter of transparency and accountability, I am requesting that the PPCR compile information on disbursements from each participating MDB and prepare a comprehensive report on all disbursements.
2. In the November 10, 2010 PPCR meeting, I requested that the Trustee prepare a written report on disbursements to date which should be accompanied by an oral report at the meeting. The report should include a description of each disbursement to date (including the date disbursement) the implementing and executing entities through which each disbursement was channeled, indication of whether the funding was a grant or loan, and a brief description of the activities to receive support from the funding. The report should also detail the total amount of funding disbursed to date and the total amount of funding still available in the PPCR.
3. I also request that the PPCR Trustee prepare a regular report, to be distributed by email, at least every three months, with the above mentioned information.
4. Civil society sees timely and comprehensive information on disbursements as a key matter of transparency and accountability that must be addressed.
