

Program for PPCR M&E Specialists

World Bank J Building, Rooms B1-080 & B1-061 Washington, DC, United States May 2 - 3, 2013

PPCR M&E Specialists will attend a total of four sessions on monitoring and reporting over the two-day program. Two morning sessions will be a part of the broader PPCR Pilot Country Meeting, and two afternoon sessions will be special workshops for M&E specialists.

Thursday, May 2, 2013

9:00 am - 12:30 pm PPCR Pilot Country Meeting - Part I

Room B1-080

PPCR pilots will have prepared first draft monitoring and reporting work plans and are expected to establish baselines and targets for core indicators by August 2013. This session provides an opportunity to address practical issues related to the PPCR revised results framework and M&E deliverables. The session will begin with a "nuts and bolts" presentation by the CIF AU Senior Monitoring and Evaluation Specialist on the PPCR revised results framework, including work plans, core indicators, and national monitoring and reporting systems. The presentation will be followed by a question and answer session during which countries and regional institutions are encouraged to raise any questions and share their experiences in developing monitoring and reporting work plans. During the second part of the session, participants will move into table discussions to peer review their monitoring and reporting work plans. Each group will briefly report the key findings from their peer review and discuss and agree on what a good work plan for PPCR monitoring and reporting should look like.

1:30pm - 5:30pm PPCR M&E Specialist Workshop - Part I

Room B1-061

The workshop will aim at creating and strengthening a network of PPCR M&E practitioners. Topics in this afternoon will include an in-depth preview of the guidance on the five core indicators and the toolkit for monitoring and reporting, which will be discussed in the broader pilot countries meeting the following morning.

Friday, May 3, 2013

9:00 am - 12:00 pm PPCR Pilot Country Meeting - Part II

Room B1-080

The main part of the session will focus on the core indicator guidance sheets and tools for monitoring and reporting. The CIF Administrative Unit staff will introduce each core indicator and provide information on content and context and explain how and why the guidance and the scorecards have been developed in this particular shape and form. Thereafter the countries will break into groups to "road test" the core indicator guidance sheets and score cards, which have been developed by the CIF Administrative Unit to support countries in measuring and reporting country-level PPCR results. The CIF Administrative Unit team will use the feedback from this "road test" to improve the core indicator guidance sheet and score card.

1:00pm - 4:30pm PPCR M&E Specialist Workshop - Part II

Room B1-061

This afternoon session will take another in-depth look at the work plans and review them in light of the improved understanding of how the core indicators shall be measured. In addition the workshop will introduce techniques to establish retrospective baseline data as well as techniques for establishing and reviewing targets for the five core indicators.
