Introduction

The Climate Investment Funds (CIF) were established in 2008 and comprise two trust funds. The Clean Technology Fund (CTF) provides resources to scale up low-carbon technologies with a significant potential for long-term greenhouse gas emissions savings. The Strategic Climate Fund (SCF) provides financing to pilot new development approaches or scale-up activities aimed at a specific climate change challenge or sectoral response. The SCF currently finances three such programs: the Forest Investment Program (FIP), Pilot Program for Climate Resilience (PPCR), and Scaling Up Renewable Energy in Low-Income Countries Program (SREP).

The World Bank acts as the Trustee for the CIFs. This report is produced by the Trustee based on financial information as of March 31, 2021, in accordance with the Trustee's role as set forth in the Governance Framework for the SCF which states:

"The Trustee will provide to the SCF Trust Fund Committee, and, to the extent applicable, any SCF Sub-Committee, regular reports on the financial status of the Trust Fund, as agreed between the Trustee and the SCF Trust Fund Committee, or as the case may be the relevant SCF Sub-Committee."

Regular financial reporting is provided through the Trustee's website: www.fiftrustee.worldbank.org. This report has been prepared specifically for the SCF Trust Fund Committee (TFC) to provide: (i) a snapshot of the financial status of the SCF Trust Fund as of March 31, 2021; (ii) the status of pledges and contributions, and (iii) the status of the three SCF Programs (FIP, PPCR, SREP).

c/ The USD 200 million pledge was committed in JPY in the amount of JPY 19 billion.

d/The total contribution finalized by the United Kingdom through the SCF is GBP 2.1 billion, which includes allocation of GBP 1330 million to CTF, GBP 3.5 million to Readiness Fund of the Forest Carbon Partnership Facility (FCPF), GBP 11.5 million to Carbon Fund of the FCPF and GBP 50 million to the Congo Basin Fund.

e/ The total pledge made by the United States to the CTF and SCF is USD 2 billion.

f/ Includes cash receipts and encashed promissory notes.

g/Cash contributions in Provison Account for SCF include SEK 100 million from Sweden and Contribution receivable from Sweden for SEK 200 million in Provisional Account for SCF.

h/ Cash Contribution includes USD 10 million received from Netherlands in the provisional account under SCF. This will be allocated upon instructions from Netherlands

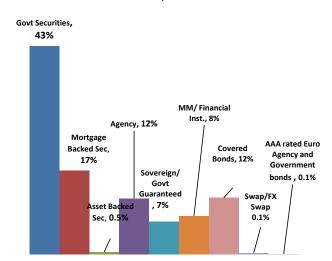

1.2.Asset Mix and Investment Returns and Adjustment for Changes in Market Conditions

The undisbursed cash balance of the SCF Trust Fund is maintained in a commingled investment portfolio ("Pool") for all trust funds managed by IBRD. The Pool is managed actively and conservatively with capital preservation as the over-arching objective.

ASSET MIX

SCF Trust Fund assets are invested across three of the World Bank Trust Fund's investment model portfolios, ("Model Portfolio 0" for short term working capital needs, "Model Portfolio 1" with an investment horizon of one year, and "Model Portfolio 2" with a broader investment universe and an investment horizon of three years). The investment objectives for the SCF Trust Fund are to optimize investment returns subject to preserving capital and maintaining adequate liquidity to meet foreseeable cash flow needs, within a conservative risk management framework¹. Although actual future returns will depend on market conditions, the Trust Fund Investment Pool is actively monitored and adjusted to preserve development partner funds over the investment horizons. Over shorter periods however, market volatility may result in negative actual or 'mark-to-market' returns. Overall, the SCF Trust Fund cumulative returns have been driven by its investment in longer-term model portfolios, which may be exposed to higher volatility in returns over shorter periods but are expected to have higher returns over longer periods.

As of March 31, 2021, the portfolio allocation by asset class has the largest allocations to government securities, mortgage backed securities (MBS), covered bonds and agency bonds.

as of March 31, 2021

¹ On July 1, 2015, the World Bank formally adopted the Conditional Value-at-Risk (CVaR) measure as the risk constraint in the management of trust funds which is defined as limiting the estimated average loss to the portfolio in the worst 1% of loss events. The World Bank Model Portfolios have their overall market risk constrained by a CVaR measure as follows:

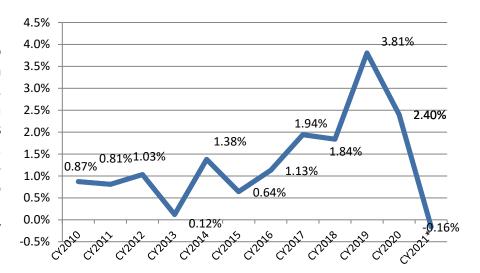

The risk constraint of Model Portfolio 1 is expressed as the 1-year 99% Conditional VaR being no worse than -25bps

The risk constraint of Model Portfolio 2 is expressed as the 3-year 99% Conditional VaR being no worse than -100bps.

² Mark-to-market gains or losses represent unrealized gains or losses resulting from changes in the value of securities in the portfolio which have not yet been sold.

INVESTMENT RETURNS

The SCF Trust Fund liquid portfolio earned USD 150.3 million in investment income since inception. The portfolio returns through March of calendar year 2021 was negative 0.16% (non-annualized). The portfolio witnessed negative returns during the quarter due to steepening of the yield curve which negatively affected returns under Model Portfolio 2

*YTD non-Annualized

1.3. Cumulative Net Commitments

Total Net Commitments by the Trustee by Activity

As of March 31, 2021, based on the funding approvals by the SCF Trust Fund Committee, or the relevant SCF Sub-Committee as appropriate, the Trustee has made net commitments totaling USD 2.50 billion. Of this amount, USD 2.31 billion for projects, project preparation grants and MDB costs for project implementation and supervision services (MPIS), USD 184.92 million for Administrative and other commitments (USD 31.13 million for the Country Engagement budget, USD 140.6 million for administrative expenses, USD 7.7 million for the Evaluation and Learning program, and 5.5 million for Technical Assistance Facility.)

Net Project and Program Commitments by Program

Net commitments made by the Trustee totaled USD 2.31 billion for projects, project preparation grants and MPIS costs, of which USD 0.63 billion have been committed under the FIP, USD 1.06 billion under the PPCR, and USD 0.62 billion under the SREP.

d/ From Feb 1, 2016, Investment income across all SCF programs has been posted to a notional Admin "account", from which approved Administrative Budget expenses for the Trustee, Secretariat and MDBs are committed. The Country Programming budgets are recorded under individual programs.

e/ This refers to cancellation of program and project commitments approved by the SCF TFC

f/ Amounts withheld to mitigate over-commitment risk resulting from the effects of currency exchange rate fluctuations on the value of outstanding non-USD denominated promissory notes.

g/The amount of this reserve is estimated by the CIFAU and Trustee using the 10-year forecast of the Admin Budget less the 10-year estimate of Investment Income and reflows. Pro-rata estimates across three SCF programs are based on the 22% fixed pro rata share of the FIP's cash balance as at December 31, 2017 approved by the SCF TFC on March 8, 2018. The decision reads as "allocate USD 11.6 million from the available grant resources in the FIP Program Sub-Account to finance estimated Administrative Costs from FY19 to FY28, such that the projected, indicative amount of approximately USD 81.8 million in FIP grant resources remains available for allocation to FIP project's. This reserve amount has been reduced by USD 0.5 million approved for country engagement from January 2018.

h/ Any payments of principal, interest from loans, which are due to be returned to the Trust Fund pursuant to the Financial Procedures Agreements consistent with the pertinent SCF funding approved by the SCF Trust Fund Committee. For the avoidance of doubt, the Reflow does not include any return of funds from SCF grants or Administrative Costs, including cancelled or unused funds, or any investment income earned on SCF resources held by any MDB. The usage of reflow from MDBs are approved by the SCF TFC on March 8, 2018 to cover the shortfall in administrative expenses net of the SCF investment income. The reflows includes the commitment fee, front end fee and late payment fee.

a/ Cash contributions amounting to GBP 15 million (USDeq. 24.5 million based on exchange rate on May 10, 2011) received as capital contributions are available to finance grants (including administrative costs) according to the terms of the contribution agreements/arrangements.

b/ From Feb 1, 2016, Investment income across all SCF programs has been posted to a notional Admin "account", from which approved Administrative Budget expenses for the Trustee, Secretariat and MDBs are committed. The Country Programming budgets are recorded under individual programs.

c/ This refers to cancellation of program and project commitments approved by the committee. Also includes any commitment cancellations to adjust changes to the previous approvals.

d/ The amount of this reserve is estimated by the CIFAU and Trustee using the 10-year forecast of the Admin Budget less the 10-year estimate of Investment Income and reflows. Pro-rata estimates across three SCF programs are based on the 41% fixed pro rata share of the PPCR's cash balance as at December 31, 2017 approved by the committee on March 8, 2018. The decision reads as "allocate USD 10.6 million from the available grant resources in the PPCR Program Sub-Account to finance estimated Administrative Costs from FY19 to FY28, such that the projected, indicative amount of approximately USD 16.3 million in PPCR grant resources remains available for allocation to PPCR project's". This reserve amount has been reduced by the aproved amount of USD 0.5 million for the country engagement from January 2018.

e/Commitments for the Technical Assistance Facility, as estimated by the CIFAU.

f/Anticipated commitments as estimated by the CIFAU.

g/ Any payments of principal, interest from loans, which are due to be returned to the Trust Fund pursuant to the Financial Procedures Agreements consistent with the pertinent SCF funding approved by the SCF Trust Fund Committee. For the avoidance of doubt, the Reflow does not include any return of funds from SCF grants or Administrative Costs, including cancelled or unused funds, or any investment income earned on SCF resources held by any MDB. The usage of reflow from MDBs are approved by the SCF TFC on March 8, 2018 to cover the shortfall in administrative expenses net of the SCF investment income. The reflows includes the commitment fee, front end fee and late payment fee.

a/ Promissory Notes amounting to GBP 19.84 million received as capital contributions are available to finance grants (including administrative costs) according to the terms of the contribution agreements/arrangements. The Promissory Notes are valued as of March 31, 2021 exchange rate.

b/ This amount includes USD equivalent of GBP 93.47 million from the UK.

c/ From Feb 1, 2016, Investment income across all SCF programs has been posted to a notional Admin "account", from which approved Administrative Budget expenses for the Trustee, Secretariat and MDBs are committed. The Country Programming budgets are recorded under individual programs.

d/ This refers to cancellation of program and project commitments approved by the SCF TFC.

e/ Amounts withheld to mitigate over-commitment risk resulting from the effects of currency exchange rate fluctuations on the value of outstanding non-USD denominated promissory notes.

f/ The amount of this reserve is estimated by the CIFAU and Trustee using the 10-year forecast of the Admin Budget less the 10-year estimate of Investment Income and reflows. Pro-rata estimates across three SCF programs are based on the 37% fixed pro rata share of the SREP's cash balance as at December 31, 2017 approved by the SCF TFC on March 8, 2018. The decision reads as "allocate USD 31.6 million from the available grant resources in the SREP Program Sub-Account to finance estimated Administrative Costs from FY19 to FY28, such that the projected, indicative amount of approximately USD 59.6 million in SREP grant resources remains available for allocation to SREP projects". This reserve amount has been increased by the approved commitment amount of USD 0.3 million for country engagement cancellation from January 2018. The reflows includes the commitment fee, front end fee and late payment fee.

g/ Anticipated commitments for SREP program includes both Sealed and Reserve pipeline. Anticipated commitments as estimated by the CIFAU.

h/ Any payments of principal, interest from loans, which are due to be returned to the Trust Fund pursuant to the Financial Procedures Agreements consistent with the pertinent SCF funding approved by the SCF Trust Fund Committee. For the avoidance of doubt, the Reflow does not include any return of funds from SCF grants or Administrative Costs, including cancelled or unused funds, or any investment income earned on SCF resources held by any MDB. The usage of reflow from MDBs are approved by the SCF TFC on March 8. 2018 to cover the shortfall in administrative expenses net of the SCF investment income. i/ Commitments for the Technical Assistance Facility, as estimated by the CIFAU.
