Comments received from Germany--Approval by Mail: CTF Nigeria: Line of Credit for Renewable Energy and Energy Efficiency Projects (AfDB)

Dear Patricia and AFDB-Nigeria Team,

GER appreciates the time and effort that have been put into answering our questions. We are happy to support this first Nigeria investment project of the CTF and the efforts that have been made to bring more RE/EE projects into the Nigerian system.

We look forward to being informed in due course on the type of projects financed and the progress made.

Kind regards,

Frank
