**Response of CIF AU to Australia on Approved by mail: Samoa - Enhancing the  
Climate Resilience of Coastal Resources and Communities (IBRD) PPCR**

Dear Kate,

I have checked the UK comments and they say " The UK welcomes this project, which we are content to endorse subjects to the concerns raised on involuntary resettlement being better addressed. We have the following comments ...". the IBRD team will provide detailed responses to all comments and questions and take them into account while finalizing the project document and during the implementation. I will recheck with the UK to clarify the way forward they had in mind.

Best regards,  
Andrea Kutter
