**Comments from the United States on Approval by mail: CTF-IDB "Ecocasa"  
Program (Mexico Energy Efficiency Program Part II) (IDB)**

Patricia:

The United States has no objections to the IDB proposal for the Ecocasa program. However, as the project progresses, we would like to see an update on the expected uptake of the building standards promoted by the project and the potential for demonstration potential at scale beyond what is being directly funded by the CTF, IDB and KfW.
