**Comments from the United Kingdom on the approval by mail of CTF funding for IBRD's
Indonesia: Geothermal Clean Energy Investment Project**

Dear Patricia,

The UK is very pleased to give its support to the Geothermal Clean Energy Investment Project in Indonesia.

Please would you convey our compliments to the project team who have put a very forward a very convincing case for this project. We would specifically like to mention the detail that went into making the economic case. The case for its transformational impact was also clearly made as were the articulation of the risks. The developmental benefits were clearly articulated and detailed. We also appreciated the way in which calculations were clearly explained and assumptions stated.

Kind regards,

Simon
